

Project Info: *25 TREGO ROAD*

Welcome to the second monthly news update to keep you informed of the progress of our project at 25 Trego Road.

Our groundworks and frame subcontractor, Konform Limited, have been hard at work in the blistering summer heat with excavation and basement concrete pours. We are also starting with the vertical works i.e. concrete columns from basement to ground floor this week.

With the help of our newly erected tower crane, provided by Trident Lifting Solutions, the delivery and placement of materials on site has become easier and quicker.

We had a visit from the Considerate Contractors Scheme (CCS) monitor this month who provided positive feedback to us and a "Very Good" score in our CCS project report.

We also will be giving a Modern Slavery training presentation and workshop on 29th July on all of our sites.
